PUT YOUR LIFE ON IT®

WD Elements Desktop

External Hard Drives

Product Features

WD quality inside and out
Designed with the same commitment to quality that made WD external drives the number one selling drives in the world.

Preformatted for PCs
Designed for use with Windows-based computers. Can be easily reformatted for use with Macs.

Power miser
WD Elements external drives with WD GreenPower Technology™ are designed to save energy. They reduce internal drive power consumption by up to 30%, a sleep mode reduces power during idle times, and a power-saving feature turns the drive on and off with your computer.

Plug-and-play simplicity
Just connect the power and plug it in to a USB port to instantly add more storage to your computer.

USB 2.0 interface
A simple connection that offers convenience and compatibility among multiple computers.

Planet friendly
We designed a small retial box from recycled materials to minimize waste. We encourage you to recycle it.

Product Specifications

INTERFACE
USB 2.0

As used for storage capacity, one megabyte (MB) = one million bytes, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabit per second (Gb/s) = one billion bits per second.
